

REMARKS

This is intended as a full and complete response to the Restriction Requirement mailed November 2, 2005, having a shortened statutory period for response set to expire on December 2, 2005.

Claims 1-14 are pending in the application and are subject to restriction and/or election requirement. The claims have been restricted under 35 U.S.C. § 121 as follows:

I. Claims 1-11 and 14, drawn to a method and computer program for propagating presentation code to a client using style information, classified in class 715, subclass 522.

II. Claims 12-13, drawn to a constrained function presentation engine using a non-validating parser and layout engine for processing a tree of nodes, classified in class 715, subclass 514.

Applicants provisionally elect the claims of Group I with traverse. Applicants respectfully request reconsideration of the restriction requirement, and request that the restriction requirement be withdrawn for at least the following reasons:

Claim 1 is directed to "a method of propagating presentation code to a client... using a constrained function presentation engine...." Claim 12 is directed to a "constrained function presentation engine...." It is respectfully submitted that the nexus between the two claims of a "constrained function presentation engine" is sufficiently similar that an undue burden is not placed upon the examiner in performing a search respect to these inventions.

To the extent this restriction requirement is maintained by the Examiner, Applicants reserve the right to subsequently file a divisional application in order to prosecute the invention recited in the non-elected group of claims.

As such and because of the above traversal, Applicants respectfully submit that the Right of Petition under 37 CFR §1.144 has been preserved.

REQUEST FOR CORRECTION OF ATTORNEY DOCKET NO.

On July 28, 2005, Applicants requested correction of the attorney docket number. The correction has not been made. Applicants respectfully request that the attorney docket number be changed to: TVW/APP49US.

CONCLUSION

Applicants believe that all claims presently pending in this application are in condition for allowance. If however, the Examiner believes that there are any unresolved issues requiring adverse final action in any of the claims now pending in the application, it is requested that the Examiner telephone Eamon J. Wall, at (732) 530-9404 so that appropriate arrangements can be made for resolving such issues as expeditiously as possible.

Respectfully submitted,

12/1/05

E J Wall
